

First Letters!

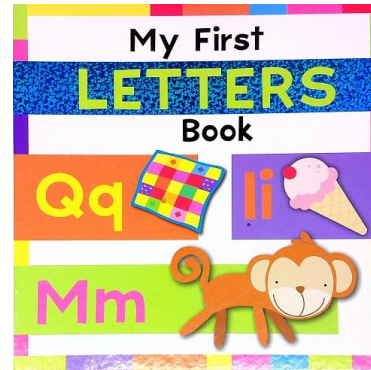

Support your child's brain development for learning language and communication skills by providing new and descriptive words daily.

My First LETTERS Book provides each letter of the alphabet with a corresponding object for a fun visual description. Language and Literacy are important parts of your child's development and daily routines. Learning the alphabet teaches children to learn letter recognition and improves the opportunity to learn and pronounce new words. These actions are a steppingstone for later school readiness goals such as reading and writing.

Thank you to **PoWer! Book Bags** for the generous donation of this book.
